## Boomer Fulcrum Sled:

Fulcrum: (Webster's definition)

- a. the support about which a LEVER turns.
- b. one that supplies capability for action.

Quite simply put, this is the perfect definition for the perfect sled.

- Realistic fulcrum pivoting action conditions your players to achieve leveraged power over an opponent without losing their balance
- The only sled that is completely adjustable
- Adjust spring tension, pad height and angle

## Expandable:

Individual components allow stations to be added as the need arises. Basic sleds can start with 2 man capability and expanded as you desire. A 5 man sled can be easily broken down to a 2 and a 3 man sled.

## Blocking units:

Each individual blocking unit is made up of "pigs" and pads. The "pig" is constructed with a high strength 1/4" steel plate, double welded for maximum strength and durability. The "pig" attaches to the steel chassis and is fully adjustable. Our exclusive spring tension adjustment is an integral part of each "pig". The pad fits onto the "pig" and is fully adjustable.

- A must for younger players just learning the game
- Eliminates coming off the L.O.S. flat footed, heel placement first, raising up, over-striding, getting feet too close together, and stepping in the center of the body (wt. 15 lbs.)

- Create a 6" power step that will force players to come off their toes, not their heels or flat footed
- Forces players to step at a 45° angle for slants and position blocks (reach block, cut off block)

Fisher Brute 2 sleds are scaled down versions of our popular Brute sleds and are ideal for 6th through 9th grade players. Our TITE-LOCK modular chassis provides the rigidity needed in a multi-unit sled.

## Expandable:

Individual components allow stations to be added as the need arises. Basic sleds can start with 2 man capability and expanded as you desire. A 5 man sled can be easily broken down to a 2 and a 3 man sled.

## Construction:

### Main frame:

6" x 1/2" face plates mounted on sturdy 1/4" steel plates. Square tubing runners and skids have end caps and 100% welded flanges.

### Live action springs:

Flat leaf springs deflect to absorb the shock and bounce back to provide realism in drills.

## Tite-Lock Chassis

- New improved interlocking modular design
- Overlapped channel steel construction provides the rigidity needed in a multi-unit sled.

## 2 to 7 Man Sleds

### Pad construction and options:

Each Brute 2 sled pad's core is built from high density 100 lb. impact resistant foam. Durable 18 oz. vinyl covers are then double and triple stitched to withstand harsh weather and years of hard use. Man, round & cone pad styles are available for the Brute 2 sled.

Round Pad

### Skids:

Sled skids are formed, not cut and welded. A 30 degree angle assures you of a smooth transition over your grass without chewing up the turf. Safe for artificial turf.

### Coaches Platform

This optional platform has a 36" tall, 2" O.D. hand rail and a sturdy, steel diamond plate base for an excellent non-slip surface. The platform allows an up front view of drills and gives the feel of impact.
